

FOR IMMEDIATE RELEASE

**AUTUMN LEAVES® OF VENICE  
HOSTS GRAND OPENING ON JANUARY 18**

Standalone Memory Care Community is Company's 2<sup>nd</sup> in Florida

VENICE, Florida (Jan. 3, 2018) – Autumn Leaves®, a nationwide leader in residential memory care, is pleased to announce the opening of its second Florida community. Located at 2321 E. Venice Avenue, Autumn Leaves® of Venice will offer specialized full-time care and individualized care and activity plans to 54 residents living with Alzheimer's and other forms of dementia. Autumn Leaves of Venice will also bring 45 jobs to the local area.

Autumn Leaves of Venice is accepting new residents, and will host a **grand opening event and ribbon cutting on Thursday, Jan. 18, from 4-7 p.m.** The official ribbon-cutting and remarks by the Venice Chamber of Commerce representatives, and Company and community leadership will begin at 5 p.m.

The grand opening event is open to the public, and includes an open house with guided tours, heavy hors d'oeuvres and beverages, as well as door prizes. **RSVPs are appreciated: 214-845-4419 or [RSVP.Venice@AutumnLeaves.com](mailto:RSVP.Venice@AutumnLeaves.com).**

The 37,505-square-foot community is specially designed to replicate the comforts and familiarity of a residence, which are important features in caring for those with dementia. In fact, the layout recently won the industry's prestigious Argentum Senior Living Design Award.

The entry opens to a richly appointed main living room with fireplace, as would be expected in a traditional residence. The community also encompasses a private dining room, game room, garden room, and arts and crafts center, in addition to multiple sitting rooms, two dining rooms, and 50 residential suites with private baths.

The full community is configured in a seamless figure-8 design. This provides an open, home-like environment for residents and allows them to safely transverse the community with free access to self-contained outdoor courtyards, gardening areas, fresh air walking paths, and a putting green.

Another highlight of the community is a multisensory "relaxation room" that incorporates aromatherapy, virtual stargazing, nature sounds, and a lounging area to provide comfort and calm. Residents have access to a spa, where they can enjoy light chair massages and a walk-in whirlpool bath, and a hair salon for styling and grooming services, and manicures and pedicures.

Embracing the highest industry standards for health and well-being of residents, the facility has a dedicated clinical area that includes a private exam room for visiting physicians, as well as offices for clinical staff. The community has a full-time nursing staff and offers 24/7 access to nursing care. Every staff member is trained in dementia care best practices using tools developed by the Alzheimer's Association, the National Council of Certified Dementia Practitioners, and other professional organizations.
